PROJECTS

Major Project: E-Learning Management System

📅 03/2023 - 05/2023

🔗 <https://github.com/Ritesh2025/smartmate>

- Created a centralized web-based platform to enhance teaching and learning experiences.
- Managed educational content and facilitated teacher-student communication.
- Course creation and management capabilities.
- Communication tools for teachers and students.

Major Project: Real-estate Price Prediction

📅 10/2022 - 11/2022

🔗 https://github.com/Ritesh2025/real_estate_price_prediction

- In this Project, house prices will be predicted given explanatory variables that cover many aspects of the residential house. The goal of this project is to create regression models that can accurately estimate the price of the house, given the features.
- Real estate remains in high demand in developing cities and countries.
- Market data analysis reveals challenges in accurately predicting property prices.

Minor Project: CRUD APP

📅 03/2022 - 04/2022

🔗 https://github.com/Ritesh2025/CRUD_APP

- Enable tenants to perform CRUD operations to Create, Read, Update, and Delete their electricity bill and rent records as needed.
- Implement secure user authentication to ensure only authorized tenants can access and update their data, maintaining data privacy and security.
